Continuous Professional Development

2017/18

Introduction

We are proud to be the number one* university in London for Social Work and seventh nationally. Our academic staff and practitioners bring a wealth of experience and knowledge, and our long-standing and strong ties with local authorities, charities and independent agencies ensure our courses provide the most current policy and practice in social work.

We have developed a suite of modules to support continuous professional development within Social Work which can be studied as stand-alone modules or as part of one of the three post qualifying awards (subject to validation), namely:

- Postgraduate Certificate Advanced Professional Social Work Practice (Practice Education) - upon successful completion of the two practice education modules
- Postgraduate Certificate in Advanced Professional Social Work Practice [60 credits]
- Postgraduate Diploma Advanced Professional Social Work Practice

[120 credits]

- Master's Advanced Professional Social Work Practice [180 credits]

Our programmes are delivered at our Hendon Campus which has been transformed into a state-of-the-art centre for excellence, with facilities and equipment that rival those of the world's top universities through an investment of over £200 million over recent years.

We also run bespoke/tailored programmes for local authorities/independent agencies in local areas; please contact us for more information. All of our modules are aligned with the Knowledge & Skills Statements for Child & Family Social Work (Practitioner and where appropriate, Practice Supervisor level) & Adult Social Work.
